

EDURA

Let's Learn and Play Together!

In today's digital age, children struggle with traditional learning methods, often finding them dull and uninspiring. Edura aims to transform education by integrating gamification into interactive exercises, making math and reading engaging, personalized, and fun for young learners.

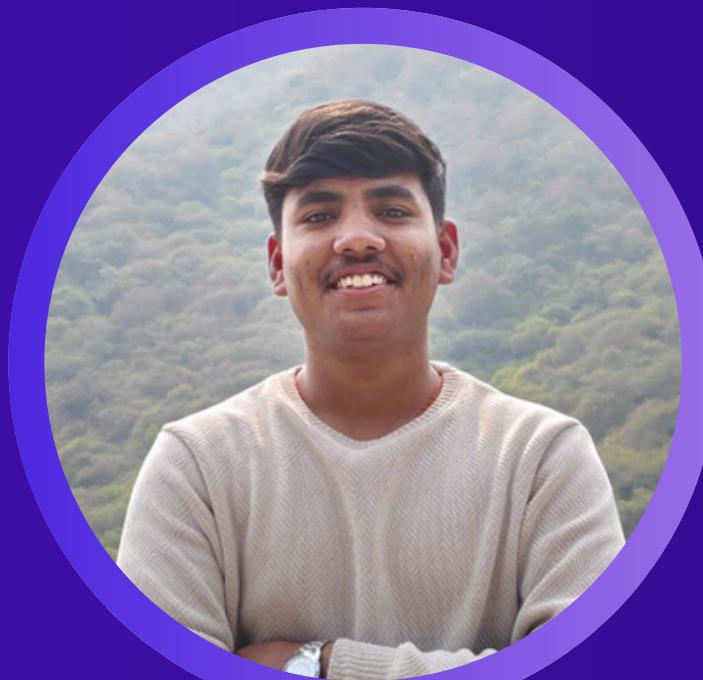

The image displays the Edura platform, featuring a mobile device screen and a larger web browser window. The mobile screen shows a bar chart titled 'Category Performance' with data for Addition, Subtraction, Division, Reasoning, Science, and General categories. The web browser window shows the 'Welcome to Edura' page with a cartoon owl character, a 'Start Playing & Learning' button, and a section titled 'OUR GAMES' with four game icons: 'Space Explore', 'Weird but True', 'Dolphin Dive', and 'Maze Mania'.

Category	Average Quiz Scores
Addition	7.5
Subtraction	7.8
Division	8.0
Reasoning	6.5
Science	7.2
General	9.0

Date	Category	Score	Performance
Mar 17, 2025	Science	8	Great

Explore our exciting range of games designed to make learning fun! Dive into our Math games to sharpen problem-solving skills, enhance reading comprehension with our Reading games, and spark creativity with engaging Activity games. Perfect for kids to learn, play, and grow!

QUIZ AND FUN

The image shows three computer monitors side-by-side, each displaying a different screen of the "Smart Quiz Challenge" application.

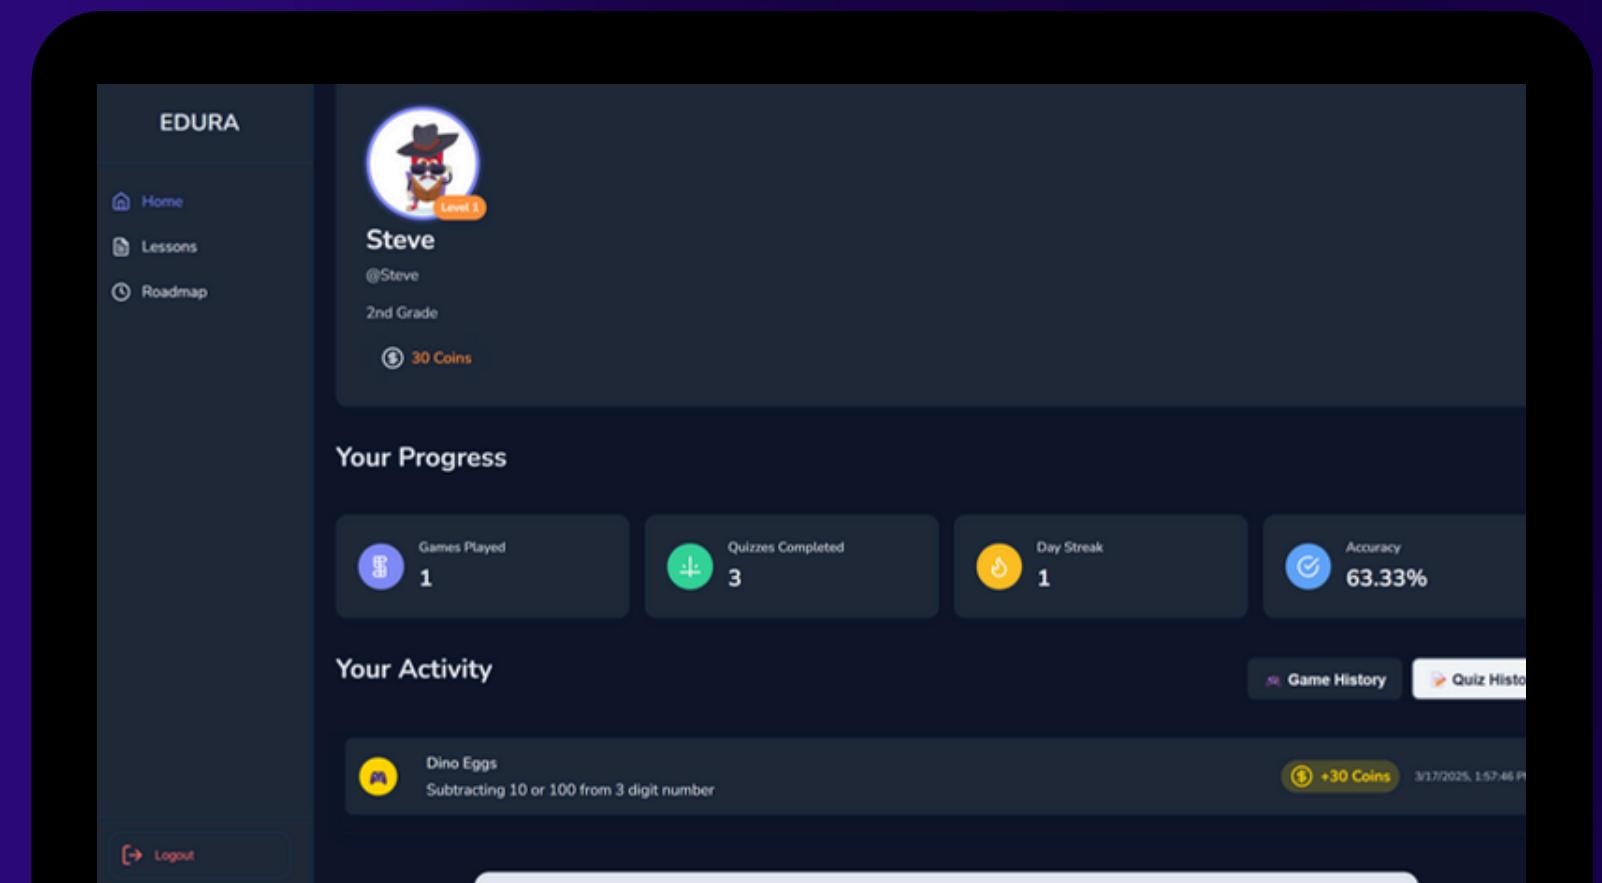

- Monitor 1 (Left):** Shows the "Select Category" screen. It features a title "SMART QUIZ CHALLENGE" at the top, followed by a "Select Category" section. Below this are four colored buttons: "Math" (blue), "Reasoning" (purple), "General Knowledge" (pink), and "Science" (green). Each button has an icon: a calculator for Math, a brain for Reasoning, a globe for General Knowledge, and a test tube for Science.
- Monitor 2 (Middle):** Shows a quiz question. The title "SMART QUIZ CHALLENGE" is at the top. A question is displayed: "1 Riya had 23 marbles and found 17 more under the bed. How many marbles does she have now?". Below the question are four answer options with radio buttons:
 - 39
 - 40
 - 41
 - 42
- Monitor 3 (Right):** Shows the "Quiz Results" screen. The title "SMART QUIZ CHALLENGE" is at the top. It displays "Quiz Results 6 / 10" in large blue text. Below this, a message says "Loading your results...". At the bottom is a blue button labeled "Try Another Quiz".

Explore our website for engaging and insightful quizzes designed to enhance children's knowledge across various subjects in a fun and interactive way.

CHILD DASHBOARD

Welcome to Child Dashboard! Here, you can track your progress with key stats like games played, quizzes completed, and your current day streak. Check out your recent activities and review your game and quiz history to see how far you've come. Stay motivated and keep learning!

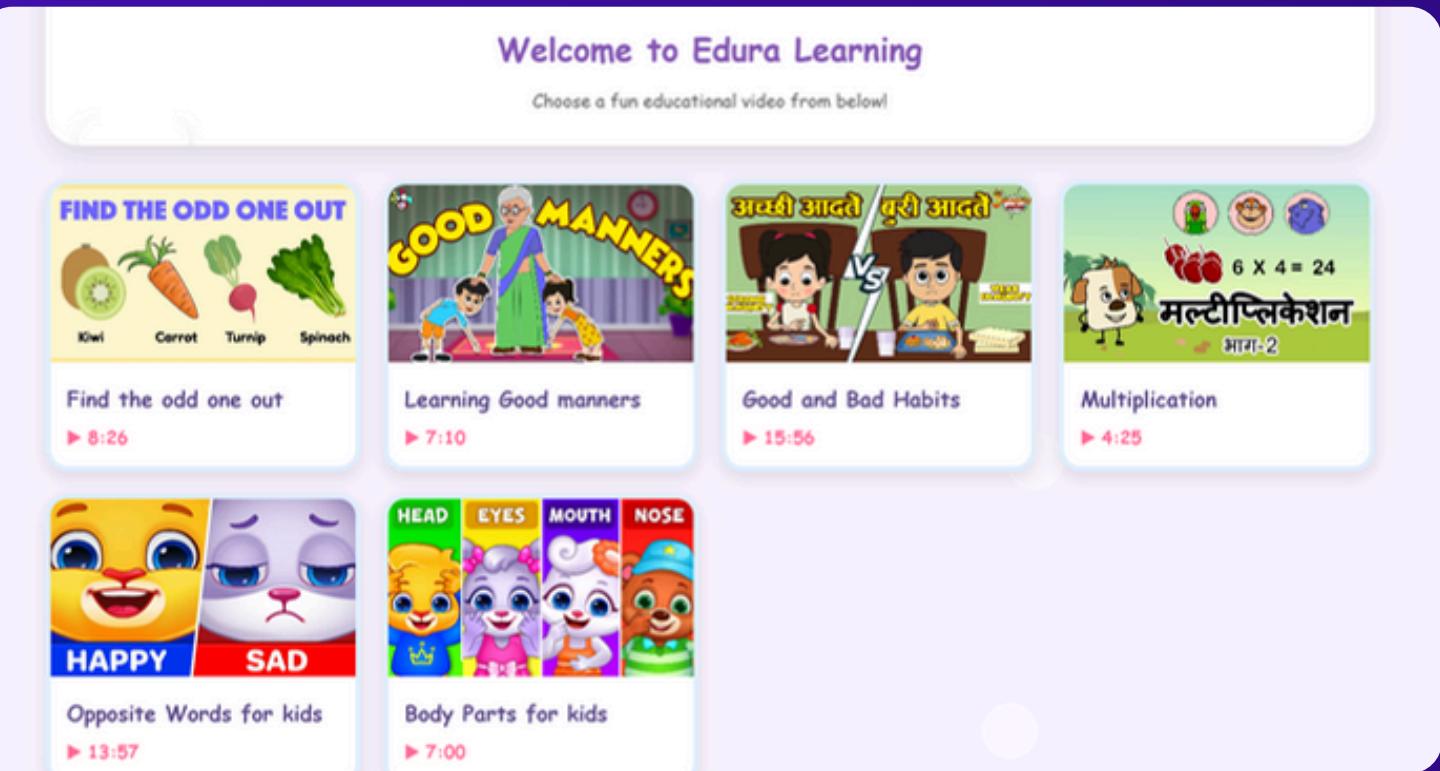

Head to the Lessons page to watch fun and educational videos that help you learn new concepts. Then, visit the Roadmap page to get a personalized plan based on your performance. Don't forget to customize your avatar as you progress through different levels and celebrate your success.

Your Learning Journey

Personalized path to mastery based on your learning style

63.33% ACCURACY

Alright Steve! Let's see what those scores tell us! 😊

Your Super Strengths 💪 (Things you're doing great at!)

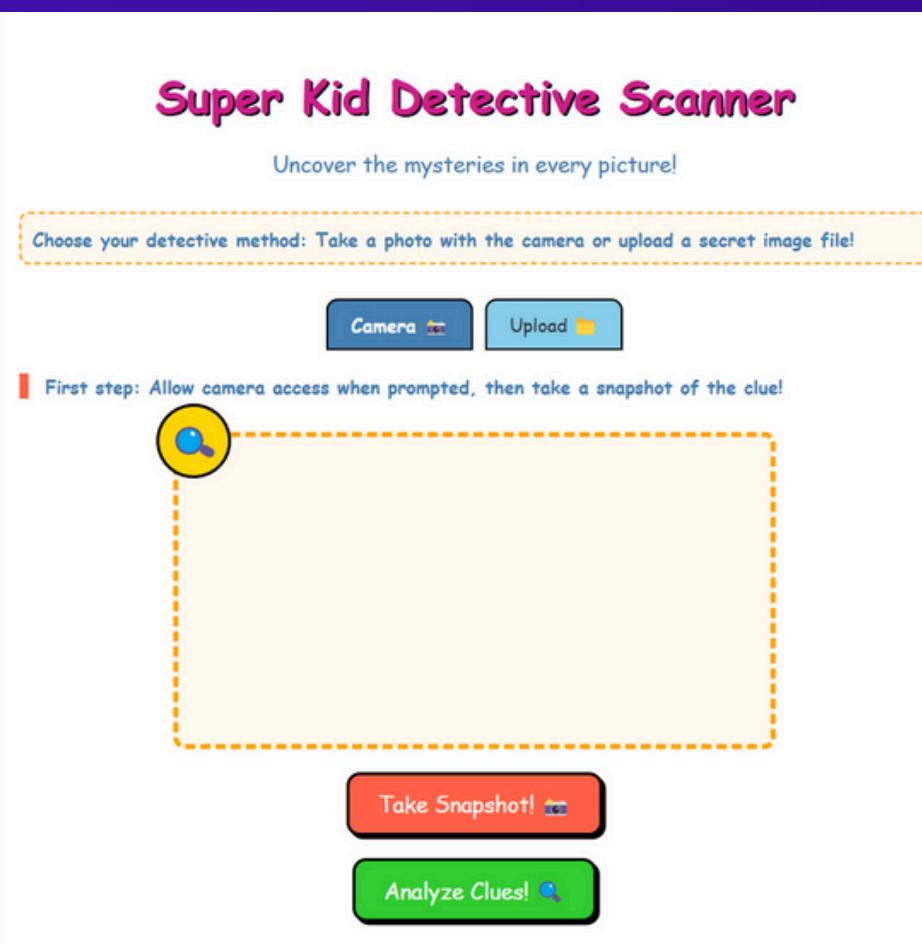

- >Addition: 7.50 - You're a counting champ! + That's like being able to count all the candies in a jar! 🍬🍬
- Division: 4.00 - You're getting there with sharing and splitting things up! + Think of it like sharing your toys fairly with your friends. 🤝🤝

Areas to Grow 🌱 (Things we can work on together to make you even better!)

- Subtraction: 0.00 - Don't worry, subtracting can be tricky! -
- Multiplication: 0.00 - Multiplication might seem like a big word, but we'll get there! ✗

Discover our comprehensive roadmap for your child's learning journey, featuring interactive quizzes, educational videos, and engaging stories to foster knowledge and skill development effectively.

Super Kid Detective Scanner

Detective's Report

DETECTIVE'S FINDINGS:

DESCRIPTION:
Hey there, future artists! 😊🎨 Look what we have here! It's an Apsara Non-Dust Eraser! ✏️🌟

This isn't a toy you play *with*, but a toy you use *for* your awesome drawings and writings! 🖍️ It's like a magical cleaning fairy 🧚 for your mistakes! If you make a boo-boo on your paper 🤦, just gently rub this eraser over it and *poof!* 💥 The mistake disappears leaving behind a nice, clean surface! No messy eraser dust to clean up either! 🌱

It's super important because it helps us make our work neat and tidy. 💯 Imagine drawing a super cool robot 🤖, but accidentally smudge its eye! 🥺 This eraser is your superhero to save the day! 🙋‍♂️

Real-life examples? Loads! 👩‍🦰👨‍🦰 Kids use it at school for their homework, artists use it to perfect their masterpieces, and even grown-ups use it at work! 💼 Basically, everyone who writes or draws needs a good eraser! 😊

We don't know the exact date this *specific* eraser was invented, but Apsara has been making writing and drawing materials for a long, long time! They're like the eraser wizards! 🧙‍♂️🌟 So, get ready to create amazing art without worrying about those pesky mistakes! 🤪

MYSTERY SOLVED! 🎉

Unleash curiosity with our Detective Scanner, which scans everyday items and presents intriguing mysteries for children to solve, making learning both fun and engaging.

PARENT DASHBOARD

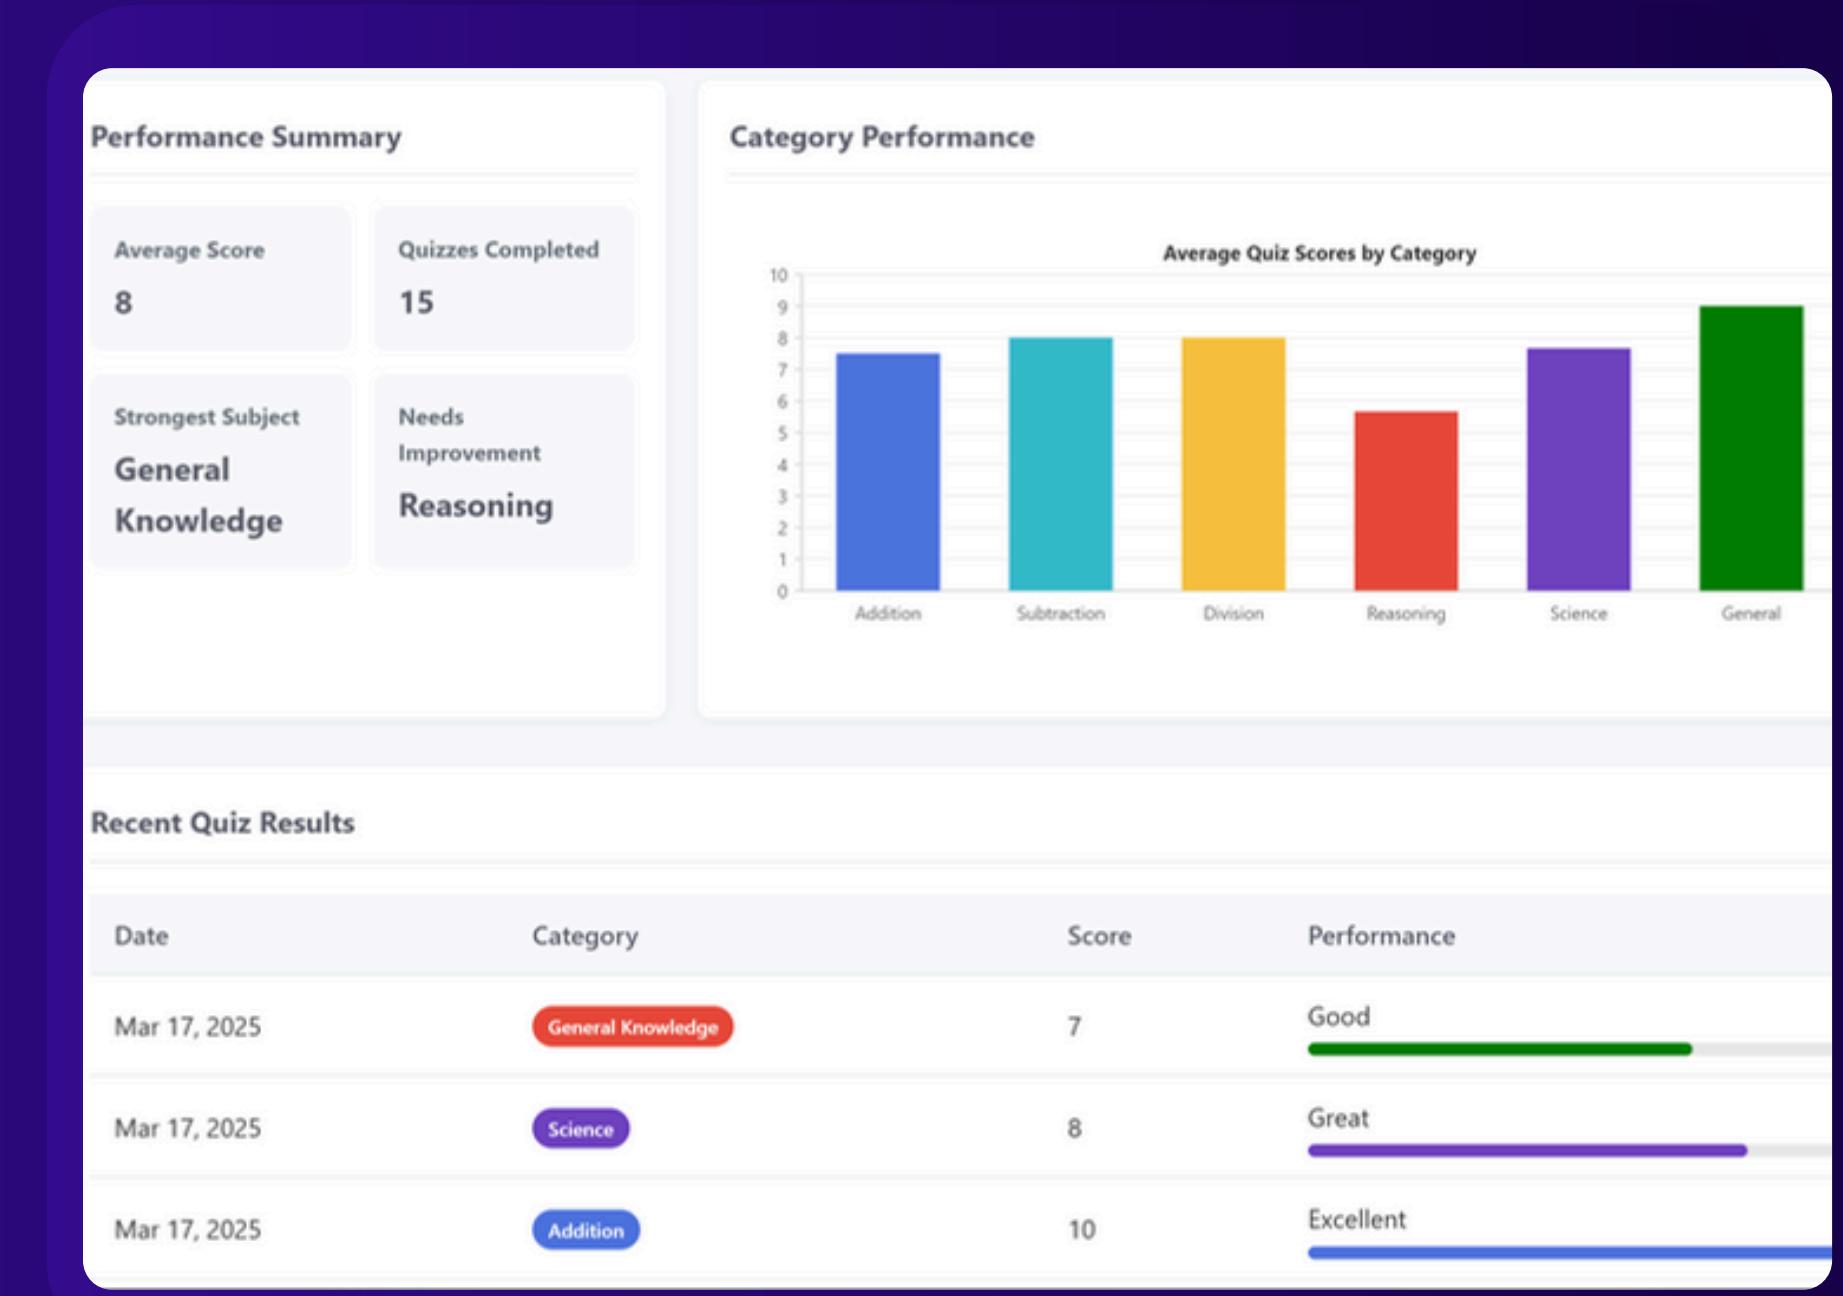

The screenshot displays the Edura Parent Dashboard interface. On the left is a sidebar with 'Edura' branding, a user profile for 'Steve Grade 2', and links for 'Dashboard', 'Children Dashboard', 'Reports', 'Quest', and 'Edura AI'. The main area shows the 'Parent Dashboard' title and subtitle 'Monitor your child's educational prog'. Below this is the 'Overview' section with four cards: 'Current Level' (Level 0, +2 since last month), 'Current Streak' (1 days), 'Accuracy' (63.33%), and 'Quizzes Attempted' (3). The 'Subject Performance' section features a radar chart titled 'Subject Performance' with axes for Addition, Subtraction, Multiplication, Division, Science, General Knowledge, and Reasoning. A legend indicates 'Current Performance' in blue. The 'Recent Activity' section shows a card for 'Dino Eggs' (Subtracting 10 or 100 from 3 digit number) with a '+30 Coins' reward and a timestamp of 3/17/2025, 1:57:46. The 'Strengths & Weaknesses' section includes a 'Strengths' card for 'Addition' at 75.00% accuracy and an 'Areas for Improvement' card.

- Current Level
- Daily Streak
- Accuracy
- Quizzes Attempted
- Subject Performance Graph
- Strengths & Weaknesses
- Recent Activity

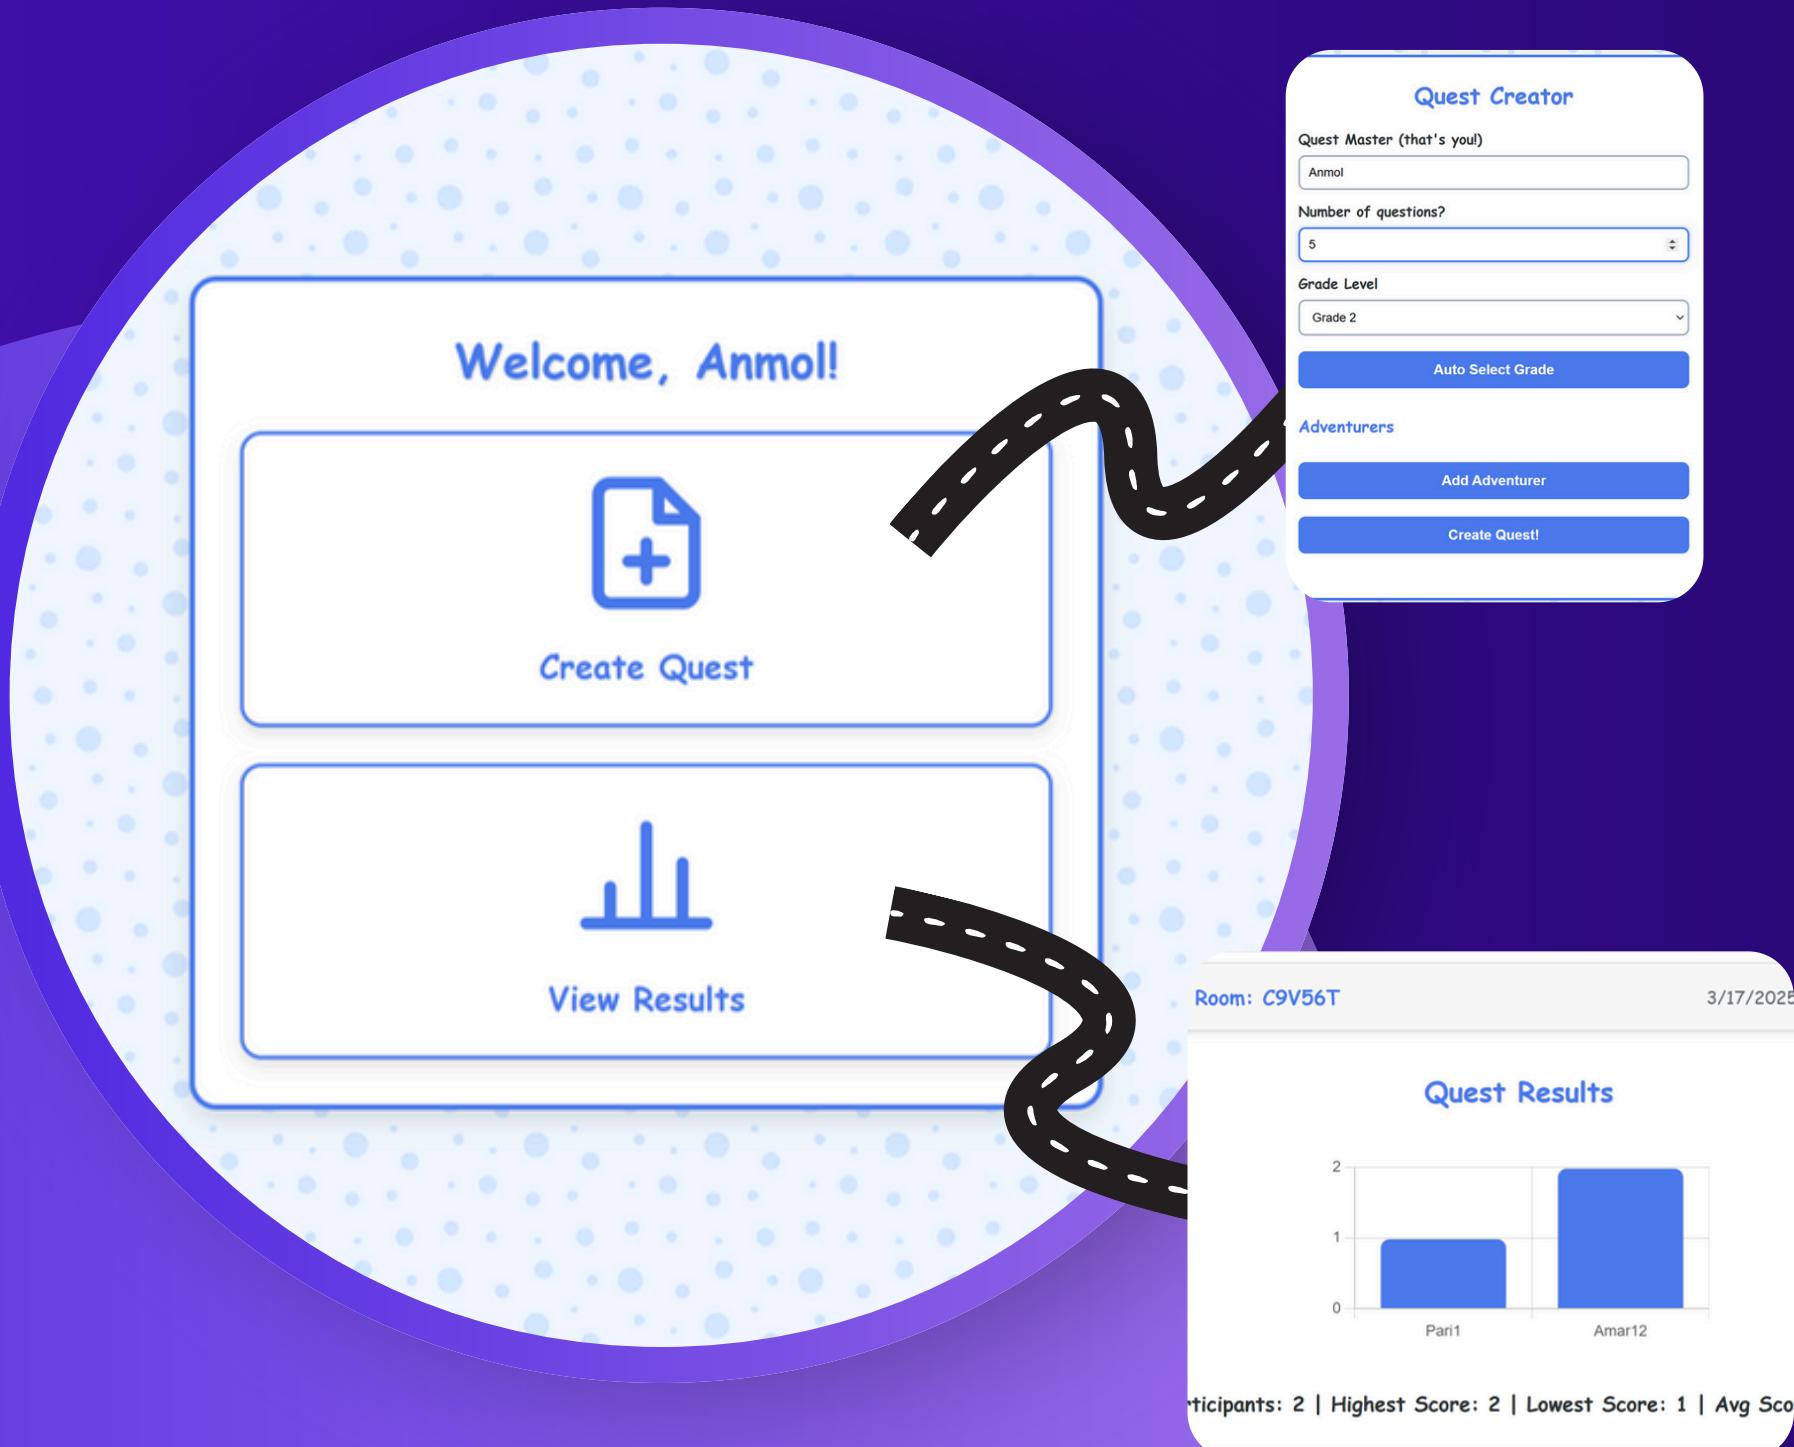

Stay connected to your child's learning progress with the Parent Dashboard. Track their current level, daily streak, and accuracy, while exploring a detailed subject performance graph. Identify their strengths and areas for improvement . Stay updated with recent activities and quizzes, and use Edura AI insights to guide their educational journey effectively.

REPORT OF CHILD

Gain a comprehensive understanding of your child's progress with our detailed Report Section. View a performance summary that highlights their overall achievements and growth. Dive into category performance to see how they're doing in specific subjects or skills. Check recent quiz results to track their latest accomplishments and areas needing attention. Finally, explore personalized recommendations tailored to their strengths and weaknesses, ensuring they stay on the right path to success. Stay informed and support their learning journey with actionable insights!

COLLABORATIVE LEARNING

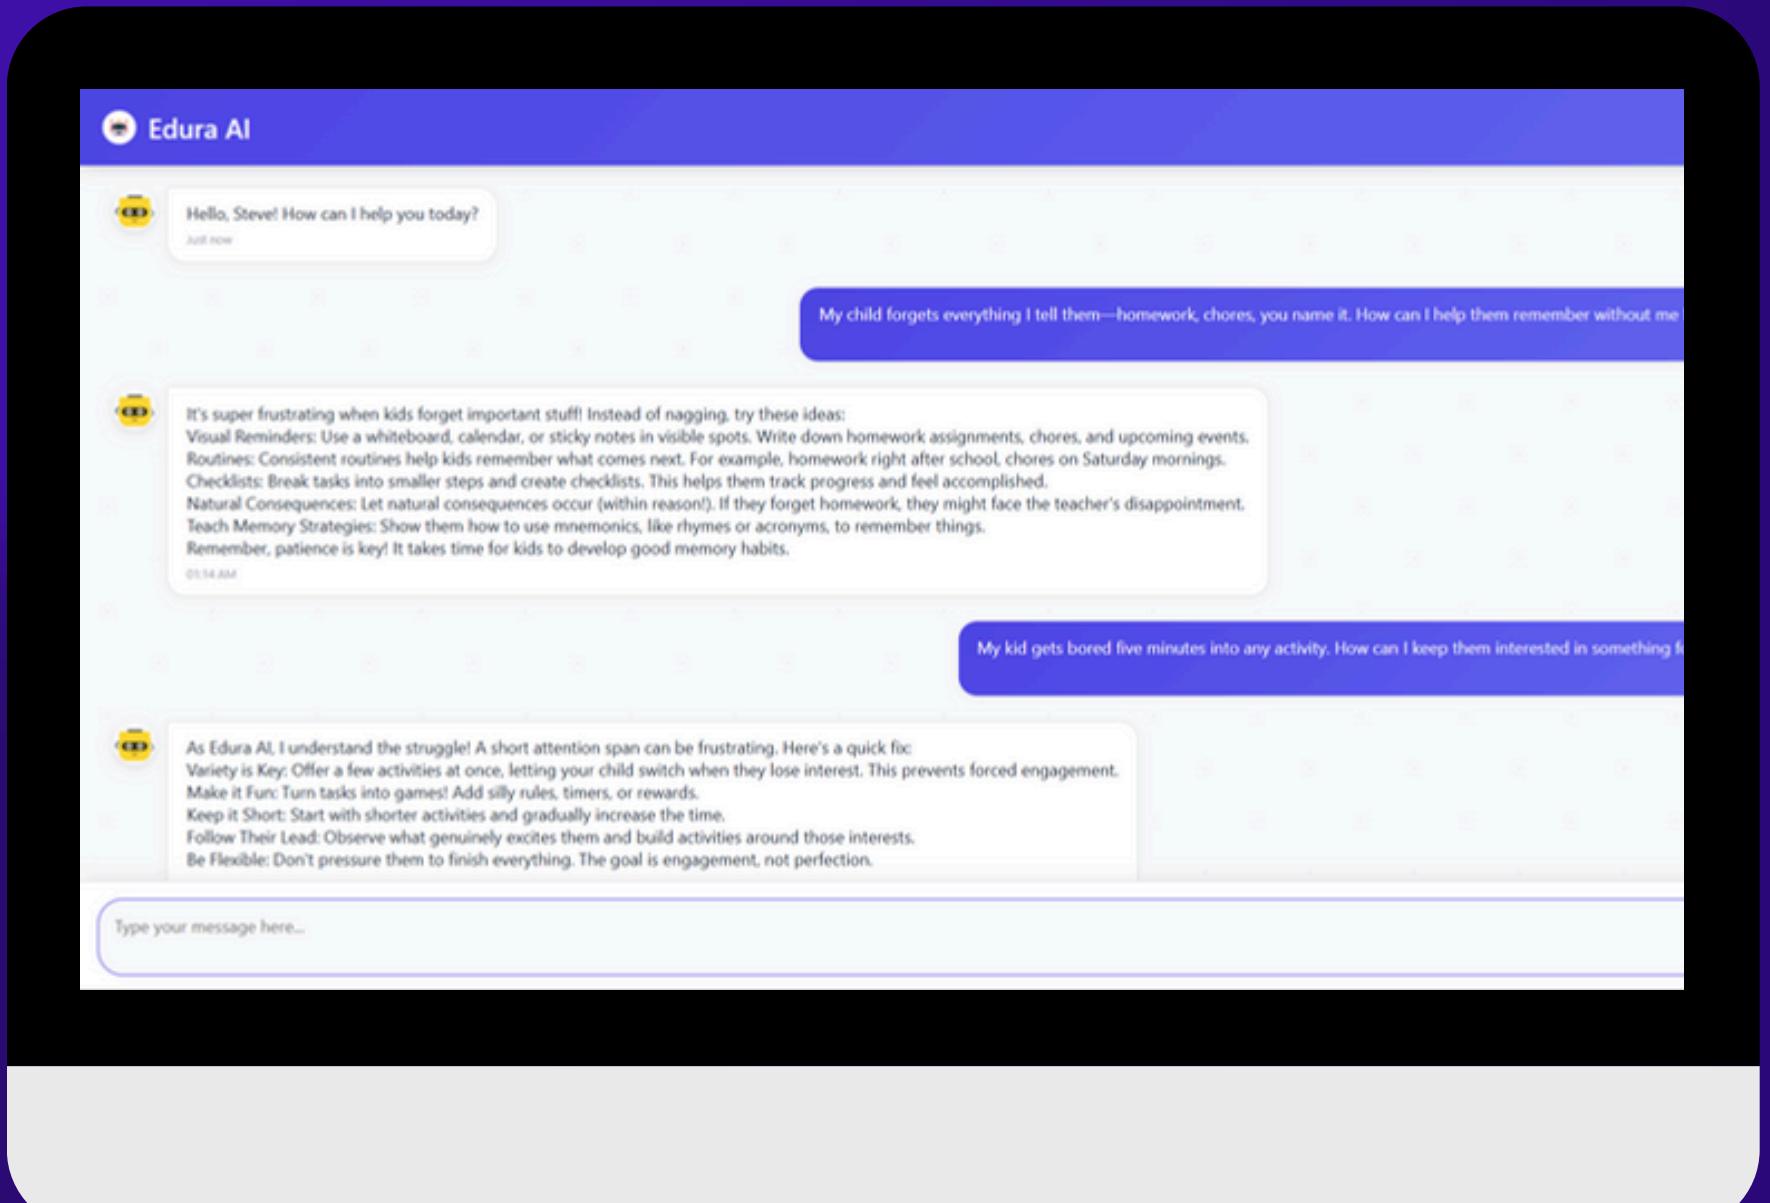

Empower your child's learning journey with our interactive Quest feature! Parents can create exciting quests and generate a unique code to share with multiple children. Once the code is entered on their devices, kids can join the quest and participate in fun, educational challenges.

Track real-time results, including each child's name and their performance graph, to see how they're progressing. Foster teamwork, motivation, and learning through engaging quests tailored to their growth!

EDURA AI FOR PARENTS

Smarter Insights to Guide Your Child's Learning Journey

Edura AI is here to assist you with all your parenting questions and educational concerns. Think of it as your personal guide, ready to provide tips, advice, and solutions whenever you need them. Whether you're looking for ways to support your child's learning or need help with specific challenges, Edura AI is just a question away.

THANK YOU!
